THIRD STREET IS TO BE COMPLETED

City Council Amends Plans and
Specifications Allowing Use of
T Rails By I. & C.

OTHERS NOT TO BE BOUGHT

Contractor George T. Miller, Meets
With Council and Says He Will
Begin Work Mar. 1

The work of completing the Third street pavement from Morgan street to Julian will be started about the first of March, if the weather is favorable, since the city council, at its regular meeting last night, adopted a resolution amending the plans and specifications, so as to permit the use of a T rail.

George T. Miller of Lebanon, the contractor, met with the council when the resolution was adopted. He said that he would be ready to go to work by the first of next month if the weather did not interfere.

The plans and specifications were amended upon a showing made by the I. & C. that it was impossible to procure flanged or grooved rails with which to relay its tracks. The company agrees, since it has been permitted to use the T rails now in use, to electrically weld all the joints now in or that may be hereafter put in the track and maintain the tracks on the street on which the brick will be laid, in such welded condition. The company also agrees to relay the track with new ties and to perform all other requirements of the plans and specifications.

The agreement between the city and the I. & C. will result in the dismissal in circuit court here of an injunction suit brought by the I. & C. last fall to prevent the contractor from finishing the street. The I. & C. got an injunction on the showing that it could not get the special material required to comply with the plans and specifications.

The pavement from Buena Vista avenue to Morgan street has been completed almost a year and the contractor has been anxious to finish the job, there being only three blocks left to pave, so that he can collect the money will be due him. He unloaded the brick for the whole street more than a year ago and they have been stacked along the lawns and sidewalks on that part of the street remaining unpaved.

The resolution adopted by the council last night was as follows:

Whereas, it is claimed by the I. & C. traction company that it is impossible for it to procure flanged or grooved rails with which to relay its tracks in Third street where the same is to be improved by paving, and,

Whereas, said traction company proposes that if it is permitted to use the T rails now in said track in said street it will electrically weld all the joints now in or that be hereafter put in said track and maintain said track in such welded condition and also relay said track with new ties and will also perform all and singular the other requirements of the plans and specifications for said street paving now therefore,

Be it resolved by the city council of the city of Rushville, Ind., in regular meeting assembled that said plans and specifications be and are hereby amended so as to permit the use of a T rail in said track of said I. & C. traction company on condition that said company shall electrically weld and maintain in that condition the T rails now in said track or that may thereafter be put on said track and place the same on oak or metal shims not exceeding one inch in thickness, the whole to be laid on new ties, and that in all other respects the original plans and specifications are to be followed so far as they affect said company.

HORSE FRIGHTENS AT WIRE

Injuring Driver Near Andersonville
and Wrecking Buggy

A horse driven by Hickson Stevens and John Hankins on the county line road near Andersonville scared at a bale of wire this morning, resulting in the wrecking of the buggy in which they were riding, injuring Mr. Hankins, whose head was badly cut. Dr. Metcalf of New Salem was called and 18 stitches were necessary to close the wound. Mr. Stevens however, came out without a scratch.

MOTION FOR A NEW TRIAL OVERRULED

City Attorney Announces That Case
of Madden vs City Will be Taken
to Appellate Court

JUDGMENT IN ANOTHER CASE

Special Judge Jenkins of Greensburg denied a new trial in the circuit court today in the case of Michael Madden against the city of Rushville, in which Madden was awarded judgment several days ago for \$120 and interest since January 4, 1913, making the total judgment \$163.20.

George Young, representing the city as city attorney, announced he would appeal the case to the state appellate court and was given ninety days to file a bill of exceptions. Madden claimed money was due him for services performed during Mayor Black's administration and successive administrations have refused to allow it on the ground that there was no appropriation for it.

On the default of the defendants, judgment was awarded the plaintiffs in the sum of \$76.60 on principal and interest, in the case of Hartford and Hall against Dagier Brothers, for \$100 on an account. A motion to quash was filed in the case of the state against Mrs. Tom Alsmann, arrested Monday on a serious offense.

FATE HANGS ON THE NATIONAL ASSEMBLY

First Congress of New Republic
at Weimar Tomorrow. Facing
Intricate Problems

WORKERS DEMANDING MORE

(By United Press.)

Weimar, Feb. 5.—The fate of Germany hangs on the result accomplished by the national assembly, which formally opens here Thursday. The assembly, which is really the first congress of the new republic, must untangle the most intricate problems brought about by the war.

Probably the most serious situation confronting the assembly is the breakdown of transportation, the shortage of raw materials and depletion of national funds, all of which combined to render reconstruction more difficult. Every public utility and most private industries are on the verge of collapse owing to the financial strain of the war.

Workers demand better wages and in a number of cases where they are refused, they seize factories, take millions of dollars and divide the money.

MUST MAINTAIN WAGES

Washington, Feb. 5.—Wage advances to railroad employees during the war must be maintained, Director General Hines told the senate interstate house committee today and watered capital must be wiped out. The government, he indicated, still owes the railroads \$361,000,000 on rentals.

THOMAS A. JONES

DIES AT 8:30 A. M.

Former County Treasurer and Veteran of Civil War Expires After
Illness of About a Week.

SEPTIC POISONING CAUSE.

Complications Arose From an Injury to One of His Fingers—
Three Children Survive Him.

Thomas A. Jones, a well known farmer and veteran of the civil war, died at his home four and a half miles west of the city, in Walker township, at 8:30 this morning. His last illness was of about a week's duration, and was caused by septic poisoning and complications arising from an injury to one of his fingers.

He was born in Fleming county, Kentucky, June 3, 1843, in a family of eight children, and came to Rush county, Indiana about 20 years old. He was married on October 30, 1865, to Louisa F. daughter of Landen and Nancy Gardner. To this union four children were born, three of whom survive, William E. Herman E. and Nellie, the other child Ella, having died at the age of one and a half years. He is also survived by two grandchildren, one brother, John A. Jones, and other relatives, besides a host of friends and acquaintances. The wife died January 12, 1882, and Mr. Jones never remarried.

He enlisted at the age of 18 at Maysville, Kentucky, in Company A, 10th Kentucky cavalry, became a lieutenant and shared the war's fortunes and glories during his enlistment. He was confined in a hospital at Lexington in September, 1862, and was later furloughed and returned to his command at expiration of the illness. His term of service having expired, he was honorably discharged in September, 1863.

In Rush county where he has been so well and so favorably known, he held various offices of trust. He was county treasurer from 1890 to 1894; a justice of peace in Walker township until 1890, was connected for many years with the Rush county Agricultural Association, as officer or director, was a member of the Phoenix lodge No. 69 F. and A. M. for many years; of Joel Wolf post, G. A. R., and a director of the Rush county National bank. He had also served as the administrator of many estates.

The funeral services will be held at the residence in Walker township Friday afternoon at 1:30 o'clock. The Rev. Daniel Ryan of Carthage, assisted by the Rev. F. Westhofe of Arlington will conduct the services. Interment will be made at East Hill cemetery.

FIRST STEP TO INTERFERE

Soldiers Council Seizes Telegraph
Offices at Weimar

(By United Press.)

Berlin, Feb. 5.—The first attempt to interfere with the national assembly which convenes in Weimar on Thursday apparently has been taken by the soldiers council in that region.

Reports were received here today that telegraph offices had been seized and censorship or confiscation of all government and assembly telegrams from Weimar have been ordered. The government is prepared to declare a state of seige in Weimar if such a step is necessary to protect the assembly.

TO PROTECT FOODSTUFF

Berlin, Feb. 5.—Four British and American cruisers have entered the Elbe enroute to Hamburg to protect steamers loaded with food stuffs, according to reports here today. Hamburg is expected to be the central distributing point for food supplies to Germany by the allies.

AGREES ON PART

OF CONSTITUTION

Committee Reaches Provisional
Agreement on Preamble and Two
Articles For League of Nations

PROGRESS IS SATISFACTORY

Whether Force to Enforce Decisions
of League Shall be Moral or
Physical is a Problem

(By United Press.)

Paris, Feb. 5.—The impression is growing that the United States shall assume the roll of God father to many of the smaller countries, willingly or unwillingly if the league of nations is to achieve all that is intended.

Paris, Feb. 5.—The special committee which is drawing up the constitution for the league of nations has agreed provisionally to the preamble and two of the articles, officials announced today. Satisfactory progress is being made on other parts of the draft.

The peace delegates are working today on more difficult problems involved in creating a league of nations—the force with which the league will make its decision effective. Opinions seemed to be divided as to whether this force should be moral or physical. Many principles have been submitted. The constitution submitted provides for reduction in every nation's armament to a point consistent with maintenance of domestic tranquility; the league is to be ultimate judge as to size of army and navy needed by member nations.

The manner of raising the army would be left to the individual country.

Only great emergency would be likely to call an army to distant points. Troubles would be settled by the army nearest district affected.

It is believed that this plan will meet with ready approval of all countries since it means least change in present methods and will overcome the natural prejudice against sending troops to distant lands, except in case of great provocation.

Interchanging of views by various powers indicate that one feature of new "freedom of the seas" laws will be the prohibition of the floating mines and prohibition of all mines outside territorial waters.

LOCAL FARMERS ARE PLEASED WITH ACTION

Senate Retains Provision of Bill
Making Live Stock Board Stal-
lion Enrollment Board

SEVERAL AMENDMENTS PASS

Several Rush county farmers were present yesterday when the administration bill creating a live stock sanitary board, was passed to engrossment in the state senate in Indianapolis. Local live stock men are interested in the bill and have been boosting it. Those who attended the session of the senate were elated because an amendment to leave the stallion enrollment board with Purdue, instead of vesting the powers in the proposed live stock sanitary board, was defeated.

An amendment to provide for the removal of the state veterinarian by a majority vote of the board was carried. An amendment providing the two live stock raisers on the board must actually be engaged in live stock production and that no member shall be interested in the manufacture of supplies for live stock raisers, was adopted. Another amendment providing the governor and not the veterinarian appointed by the four members of the board, should have the deciding vote in case of a tie, also was passed.

MORE THAN DOUBLE JAN. '18

War Saving Stamp Sales For Jan-
uary Amount to \$10,756.50

The War Saving Stamp sales for January, 1919 were more than double that of last January. Last year the total for the month was \$4,849.75 and for this year it was \$10,756.50. This shows that people over the county have come to realize that this is a good investment and they are taking advantage of the opportunity to invest in a good security with a fair return.

ANSWERS 2 CALLS IN LESS THAN TWO HOURS

Fire Department Responds When
Sparks From Chimney Cause
Fire at Overton Home

FREQUENT ALARMS EXPECTED

The city fire department answered two fire alarms yesterday afternoon, both of them being received over the telephone.

The first call was to the home of Tom Overton in East Seventh street at 4:40 o'clock when the roof caught fire from a spark from the chimney. The fire was extinguished with chemicals and a small hole was burnt in the roof. At 6:10 the department was called to the home of Dr. John M. Lee, corner of Harrison and Fourth street, to watch the house because it was feared a fire would start from sparks coming from the chimney.

The firemen are expecting numerous calls now, with the temperature much lower than it has been for a month. Not much fire has been required to keep homes warm and it is argued that with the sudden resumption of heating fire of furnaces and stoves, fires similar to that at the Overton home will be frequent.

CONFERENCE FOR S. S. WORKERS TOMORROW

Representatives of M. E. Churches
of Connersville District Will
be Present For Meeting

DR. GRANT PERKINS TO TALK

"The Relation of The Sunday School to the Centenary," is the subject of a training conference for Sunday school workers of the Connersville district to be held in St. Paul's Methodist Church Tuesday afternoon at one o'clock. The Conference will be conducted by Dr. Grant Perkins of the Board of Sunday schools at Chicago. Dr. Perkins is a specialist in Sunday School work and methods and the conference promises to be rich in helpful suggestions and inspiration. Every Sunday school worker who is interested in the Centenary movement should plan to be present.

The Rev. Clyde S. Black has arranged with Dr. Perkins to remain in Rushville for the Thursday night service at the church which will take the place of the usual prayer meeting. The address will be on "The Sunday School and The Centenary," by Dr. Perkins.

A Methodist Minute Man will also speak and there will be special music. The Centenary movement is the greatest of its kind ever undertaken by a Protestant church, its object being the intensifying of the life of the church in every direction to meet the vital world problems of the hour. The church has decided to raise eighty millions of dollars for mission work in America and in foreign lands, one-eighth of which will be given by the Sunday schools. The evening service at the church will begin at 7:30. Everybody is invited.

REWARD OF \$25

OFFERED BY CITY

Conviction of Person or Persons
Turning in False Alarms is
Sought by Council

FOUR ALREADY THIS YEAR

Committee Appointed at Meeting to
Investigate Advisability of
Buying Fire Truck

The city council last night voted unanimously to offer \$25 reward for the apprehension and conviction of the person or persons turning in false fire alarms.

While on the subject, the council also discussed the question of supplanting the horse-drawn fire apparatus with motor equipment and passed a motion authorizing the mayor to appoint a committee of three to investigate the question of installing a fire truck and report at the next regular session, Tuesday night, February 18.

The committee appointed by Mayor Irvin is composed of Councilmen Scudder, Wagoner, and Mauzy. The installation of a motor truck has been under discussion here a number of times and about a year ago those opposed to buying a big truck at that time compromised on the purchase of a light truck with a chemical attachment.

The representative of a firm selling motor trucks was here yesterday and described to the chief of the fire department and members of the council a truck which would answer the purpose here. It carries 650 feet of chemical hose and chemical tanks, in addition to an attachment to increase the water pressure. With this attachment, it is pointed out, a pressure of only fifty or sixty pounds would be needed in the mains, and the pressure could be raised to 100 or 150 pounds. This would eliminate the danger of bursting the mains with a heavy fire pressure, as if often done. Also, if the supply from the mains should fail, water could be pumped with the truck and given sufficient pressure to fight the fire.

Those favoring a motor truck point out that it would not only reduce the fire hazard, but would likewise be less expensive. The feed bill alone for the fire horses last year was between \$600 and \$700. The truck under consideration has a speed of 25 miles an hour and is equipped with pneumatic tires, which do not slip on pavement as readily as solid tires.

False alarms have been turned in with such frequency for the last year as to become annoying, which resulted in the council deciding to make an effort to make an example of someone. There have been four false alarms this year, on January 18 and 23 and February 2 and 3. There were fifteen false alarms sounded last year.

The council authorized City Attorney Young to appeal the case of Michael Madden against the city of the appellate court. Madden filed suit to collect \$120 which he alleged was due for services rendered in staying at the fire station to act as fireman of the engine when the water supply was low during Former Mayor Black's administration. The claim was not filed until Former Mayor Bebout's administration came into office and it was not allowed on the theory that there was no appropriation for it. Last month Madden was given judgment in the circuit court for \$120 and interest since January 4, 1913, making the total \$163.20.

The street commissioner was instructed by the council last night to order the outside stairway torn down from the building at the northwest corner of Main and First streets. The commissioner was also instructed to inspect all of the sidewalks in the city and order the pro-

Constitutional Amendment Providing For Registration of Voters is Passed by Senate

REPORT ON HIGHWAY BILL

Majority of Committee Favors Salaries of \$3,600 For Directors —Divided on Auto Tax

BULLETIN

Indianapolis, Feb. 5.—The senate this afternoon passed the Johnson bill giving women the right to vote for presidential electors. The vote was 44 to 3, Erskine, Hagerty and Kline voting against the measure. The bill has been passed by the house and now goes to the Governor for his signature.

Indianapolis, Feb. 5.—Classification of counties for purposes of registration of voters is permitted under an amendment to the constitution passed by the senate today, 43 to 0. This amendment is expected to solve the difficulty experienced by the present registration law.

The senate by a vote of 27 to 17 passed the Bannum bill providing that mine operators must employ shot firers and are under jurisdiction of mines now.

A bill preventing the display of the red and black flag was introduced by Representative Benz.

A bill providing for a vote on the question of whether or not a constitutional convention shall be called, was introduced by Representative Miller.

The principal point in the new highway commission bill agreed to by the house committee on roads, provides all but one member of the commission shall be paid. Three separate reports were made to the house, in two of which the principles were the same. Representative Walker alone will favor indefinite postponement.

The majority of the committee voted for the following amendment: salaries of directors cut from \$6,000 to \$3,600; salaries of employees fixed by commission and governor instead of the directors.

The commission will pass on all bids and must advertise for bids for all work. If all bids are received the commission can not in building a road itself spend more money than the lowest bid.

In the report on the question of distribution of the auto tax, five favored that the entire amount go to the highway commission and five advocated distribution among the counties.

DELCO-LIGHT

The Complete electric light and power plant

Specified and used by the U.S. Army and Navy the Red Cross and the Y.M.C.A.

DELCO-LIGHT is increasing efficiency on more than 60,000 farms

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in camps, storehouses, hospitals, Y. M. C. A. huts, airplane hangars, sub-chasers and other branches of the service.

In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.

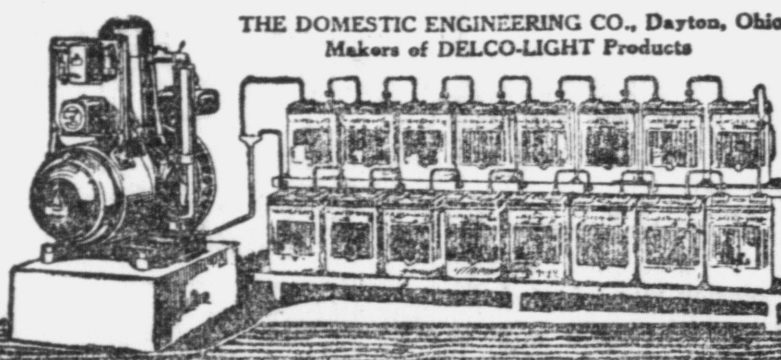

Delco-Light was specified by the Government because it is dependable, efficient, simple to operate,—requires little attention, and because it is AIR-COOLED.

The result of Government tests and the satisfactory use of Delco-Light on over 60,000 farms are your assurance that Delco-Light will give you the same dependable service.

It better living conditions,—increases farm efficiency, and soon pays for itself in time and labor saved.

—R. F. Scudder went to Indianapolis today and from there will go to Detroit for a short visit with relatives. His daughter, Miss Helen Scudder, is visiting there.

—Hubert Alexander, son of W. A. Alexander, son of W. A. Alexander living northwest of the city, arrived home last night having been honorably discharged from the service at Camp Grant, Illinois.

Amusements

A Story of a Pair of Boots

"Mrs. Leffingwell's Boots" will be shown at the Princess theatre tonight. This is a pretty story of a pair of boots which cause a great deal of trouble for the owner and all concerned. The climax of the story comes when it is discovered that there are really two pairs of shoes instead of one, as the owners of each pair think. The mystery deepens until a rainstorm that comes at an inopportune time clears the whole thing and all ends well.

Thursday and Friday "The Hun Within," will be shown, featuring Dorothy Gish and George Fawcett. Fatty Arbuckle will also be seen both nights in "The Cook."

several thrilling scenes, playing dual roles. In one scene in particular she is seen actually engaged in a fight, as Laura Standhope, with herself in the part of Larry the Kid. This scene is one of the most successful exposures ever made. One scene shows her in all three roles, an example of triple exposure.

The story deals with a young girl's fight to retain an estate left to her by her father, in the care of a shrewd executor. The will provides that she and her twin brother, from whom she was separated when a child, must appear before the executor on a certain day. The girl's triumph over the executor and the search for her brother necessitate

many thrilling experiences which add vigor to the charming appeal of the story.

"A Pair of Sixes" at Mystic

Tonight at the Mystic a sensational program will be given, "A Pair of Sixes," featuring Taylor Holmes.

One of the most distinctive features in the realm of motion pictures has been accorded in "Together," the charming Bluebird drama in which beautiful Violet Mersereau portrays three roles—a mother, daughter and son. When the picture, which was made in five reels, comes to the Mystic theatre Thursday, Miss Mersereau will be seen in

Ambition

TIRED MEN AND WOMEN who "feel old before their time," who are languid, have no energy and lack ambition—these are often sufferers from kidney trouble.

Weak, overworked or diseased kidneys are indicated by ambitionless, always tired, nervous condition, by sallowness of skin and puffiness under eyes, backache, stiff joints, sore muscles, or rheumatic pains.

Foley Kidney Pills

Get right at the cause of suffering and misery, regulate the kidneys and bladder and restore to sound and healthy condition.

N. R. Reese, Dublin, Ga., writes: "I want to say I am better. Before I started to take Foley Kidney Pills I could not turn over in the bed I had such severe pain in my back and hips. I was so stiff I could not bend over and I had to get up at night five to six times. By taking Foley Kidney Pills I am up and able to go to work."

The Blessings of Winter.

Some poet ought to celebrate fittingly the praises of the present winter.

Anyone might fancy that the miraculous mildness of these winter months, in almost every section of the country, and indeed in many other countries, is a direct result of the armistice signed Nov. 11, one of the natural and proper blessings of world peace. It appears as if Nature herself had decided to stop her warfare and cooperate with the Allies in the necessary and meritorious work of reconstruction.

It was often remarked, during the war, that Nature seemed against us. The intolerable weather of last winter gave color to the view. Cold, snow and wind collaborated with the enemy to hinder our war preparations and break our fighting spirit. People still shiver as they remember January, 1918, with its incessant blizzards, its freeze-ups and blocks.

See what the ground hog did to Knecht's weather man on classified page. 27716

Sap and Salt

By BERT MOSES

There are more fake reformers than there are takers.

Stupidity is bad enough, but pretense is unforgivable.

The question most often asked by one woman of another is this: "What did she have on?"

The accumulation of more gold than we need is not a recommendation for an orchestra chair in Paradise.

The idea that you have to stop work and put on your best duds to be real religious is at least 51 per cent erroneous.

For a man who was 600 years old, Noah hung up a ship-building record that may well make even Schwab a bit envious.

Hez Heek says: "When you come to touch the live wire of love, you will discover that it isn't just exactly what you thought it was."

ades, the insurmountable obstacles it made for transportation, and the tragic lack of fuel just when it was needed most.

Now everything is changed. The coal surplus providing against the possibility of a hard winter has hardly been drawn on at all. Fuel everywhere is plentiful. Food is plentiful. Thanks to the persistent warmth, too, food is cheaper. The cows give more milk and butter, the hens lay more eggs. The cattle and sheep and other live stock are in better condition, though they have consumed less feed. The nation has benefited in health, despite the flu, because people have been able to get outdoors more. Children have thrived and bloomed more than they usually do in these months. There has been a great saving in clothing

and shoes and various other commodities.

In short, the nation has had a chance to catch up, and will end the winter in much better condition than anyone could have expected. This will be true regardless of the weather prevailing in February and March; for it is hardly possible that these should be, from now on, enough abnormally cold weather to wipe out the good already accomplished.

Idealistic Kaiserdom.

Here is a telegram that the "People's Party", representing the German Junkers, sent to the former Kaiser on his sixtieth birthday:

"We gratefully appreciate the work which your majesty has done for the German Empire and the German people during more than thirty years. We heartily wish your majesty peace for the rest of your life and beg to assure you that millions of Germans who will live with us under new conditions and a new basis of state and life, reverence the monarchist idea and will repel every unworthy estrangement from the high ideal of German Kaiserdom and Prussian Kingship."

Who would have supposed, in this unsophisticated land, that the remained anybody in the world capable still of reverencing the Hohenzollern idea and speaking seriously of the high ideal of German Kaiserdom?

Those are the Teutonic Bourbons. They "learn nothing and forget nothing." Fortunately for Germany they are now powerless to do anything but talk, and when they do that they make such utter fools of themselves that their utterances are worthless even for propaganda purposes.

Our soldiers while in this country had probably heard something about the cost of French dresses and millinery. This may have something to do with the fact that few of them have married French girls.

Congress piling up legislation for President Wilson's signature suggests to us a baker making pies and setting them aside until the oven can come home and bake them.

When the Germans lose the nickname of Boches and Huns it will be a sign of a regenerated Germany.

The Fordson Tractor Lightens Farm Work

It means something to lighten the farm work these days when help is so scarce. That is where you will find the Fordson a worth-while investment.

A four-cylinder engine, a specially designed washer to purify the air that goes into the carburetor, and a kerosene burner—that's the Fordson.

BE SURE YOU HAVE AN OLIVER NO. 7 PLOW FOR YOUR FORDSON

Be sure you have the best plow to go with your tractor, the plow that is designed for it. The Oliver answers every requirement that you will make of your tractor plow. It is strong and durable. Buries all weeds at the bottom of the furrow; turns a uniform furrow at all times; plows clear to the end of the field; is controlled from the driver's seat on the tractor.

Come in and see it and we'll tell you many more advantages.

We are showing one of these Tractors on our floor, equipped with a Power Pulley.

Tractor \$950.00 delivered in field
Plow 147.50 delivered in field

WORLD LEAGUE IS CONGRESS TOPIC

What Kind of a League of Nations is Under Discussion in Various Places.

LEAGUE TO ENFORCE PEACE.

To be Nine Similar Conventions in As Many Cities. Speakers are Scheduled.

(By United Press.)

New York, Feb. 5.—The question, "What kind of a League of Nations?" is under discussion here today at the Atlantic Congress for a League of Nations, under auspices of the League to Enforce Peace.

The congress, which opened this morning in the ballroom of Hotel Astor is the first of a series of nine conventions to be held successively in as many American cities.

Delegates to the Atlantic congress were appointed by state governors, and by more than 10 chambers of commerce, rotary clubs, churches, and other organizations in New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia and West Virginia.

The speakers scheduled for the Atlantic congress will address the other conventions too. They include W. H. Taft, head of the League; James W. Gerard, formerly ambassador to Germany; Dr. Henry van Dyke, formerly minister to Holland; Frank P. Walsh, who was joint chairman with Mr. Taft of the National war labor board; A. Lawrence Lowell, president of Harvard university; George Grafton Wilson professor of International law at Harvard, and Edward A. Filene of Boston, director of the Chamber of Commerce of the United States.

The congress here will close tomorrow night with a mass meeting, which will adopt resolutions to be cabled to the Paris peace conference and sent to the United States senate and house of representatives.

The same procedure is laid down for the other eight Congresses, which will follow in close order. The key note of the gathering will be the necessity of showing foreign delegates to the peace conference that the people of the United States are behind President Wilson in his efforts to establish a strong, workable League of Nations.

At each of the other eight congresses, the national staff of speakers will be augmented by prominent

leaders from the other groups of states represented. The second congress will open in Boston, Feb. 1. It will be known as the New England congress, Chicago, Feb. 10 and 11; Northern, Minneapolis, Feb. 12 and 13; Northwestern, Portland, Ore., Feb. 16 and 17; Pacific coast, San Francisco, Feb. 19 and 20; Mountain states, Salt Lake City, Feb. 21 and 22; Mid-Continent, St. Louis, Feb. 25 and 26, and Southern, Atlanta, Feb. 28 and March 1.

REWARD OF \$25 OFFERED BY CITY

erty owners to make repairs where ever blocks of cement were above the level of the sidewalk. The question of moving a fire hydrant at the Charles E. Francis company's factory was referred to A. T. Mahin superintendent of the water and light plant.

EXTENDS POWER

Washington, Feb. 5.—The senate has extended the power of the committee investigating propaganda in the United States and instructed it to investigate the activities of the Bolsheviks in this country.

Easy to Start

FULLER & JOHNSON

MODEL "K"

Throttling Governor Kerosene Engines

are in use everywhere, giving the greatest satisfaction. On your farm, or any other place where reliable, economical power is needed they pay for themselves many times over. Thoroughly standardized—every one in any size is a simple, sturdy, practical and efficient power plant always ready to give full service. A turn of the wheel starts them and they run evenly and smoothly, developing over their rated horsepower until shut off. Operating on kerosene or any other gas engine fuel, they give you your choice of fuel and always make it possible for you to use the cheapest. They are handily finished, and delivered with complete equipment in a variety of sizes up to 25 h. p., both stationary and portable. Write for catalog No. 22. It tells you all about the Model "K" and what the users say of them.

THE BULL DOG PASSES THE HALF WAY MARK TODAY

CYLINDER

This is another Litchfield creation which has caused consternation in the ranks of competitors. No spreader has this feature except the RUSHVILLE SPECIAL.

It is so called because of its savage, determined and never-quit style of taking hold of the load and distributing it perfectly over the ground. This cylinder is made of nine steel "U" bars. These teeth are inserted into the bar hot and riveted on each side of it. These bars are reinforced with a center support which prevents warping and breaking. The teeth are of different lengths and are so distributed over the entire surface of the cylinder, that they take long and short digs into the load, and what the long teeth fail to get, the shorter ones handle as they come to it. It is just like two cylinders, working together; one cylinder working a little deeper than the other all the time.

This beater wheel or cylinder hangs about five inches below the bottom of the spreader box and is large enough to extend above the top of the box. As the conveyor moves the load back, this beater wheel, with its peculiar toothed construction, SLICES the load from bottom to top as it projects from the box. Bear in mind that it CUTS DIRECTLY UP and there is no "wallowing" into the load and a consequent packing and awkward, heavy work in distributing.

This beater wheel reduces the draft over 15% and in connection with our NO CHOKE box—which we will tell you about next week—from 25% to 30% in wet, heavy material. If you are looking for the best spreader you can buy, don't overlook calling at my place of business the next time you are in Rushville, and look over the RUSHVILLE SPECIAL. It is not a high priced machine, in fact it sells for less than most of the machines it is in competition with.

C. H. (Nick) Tompkins

Progress of 71st Session of Ind. General Assembly Exceeds That of Any Previous One.

BUSINESS STARTS EARLY.

Leaders Urge all Committees to Get Bills under Consideration on Floor to Avoid Closing Hour Rush.

Indianapolis, Ind., Feb. 5.—The Seventy-first session of the Indiana General assembly passed the half way mark today. The progress made at the present session of the legislature, according to leaders in both the House and the Senate exceeds that of any previous legislature in the history of the state.

Business in both branches was started earlier than customary because of the fact that organization was effected quicker than had been anticipated and because of the fact that there has been comparatively few bills introduced during the first half of the allotted time of the legislature.

Speaker Eschbach of the House and Lieutenant Governor Rush, president of the Senate, have constantly urged all committees in both houses to get all bills under consideration onto the floor of the two

HORSE SALE

Sale of Horses to take place

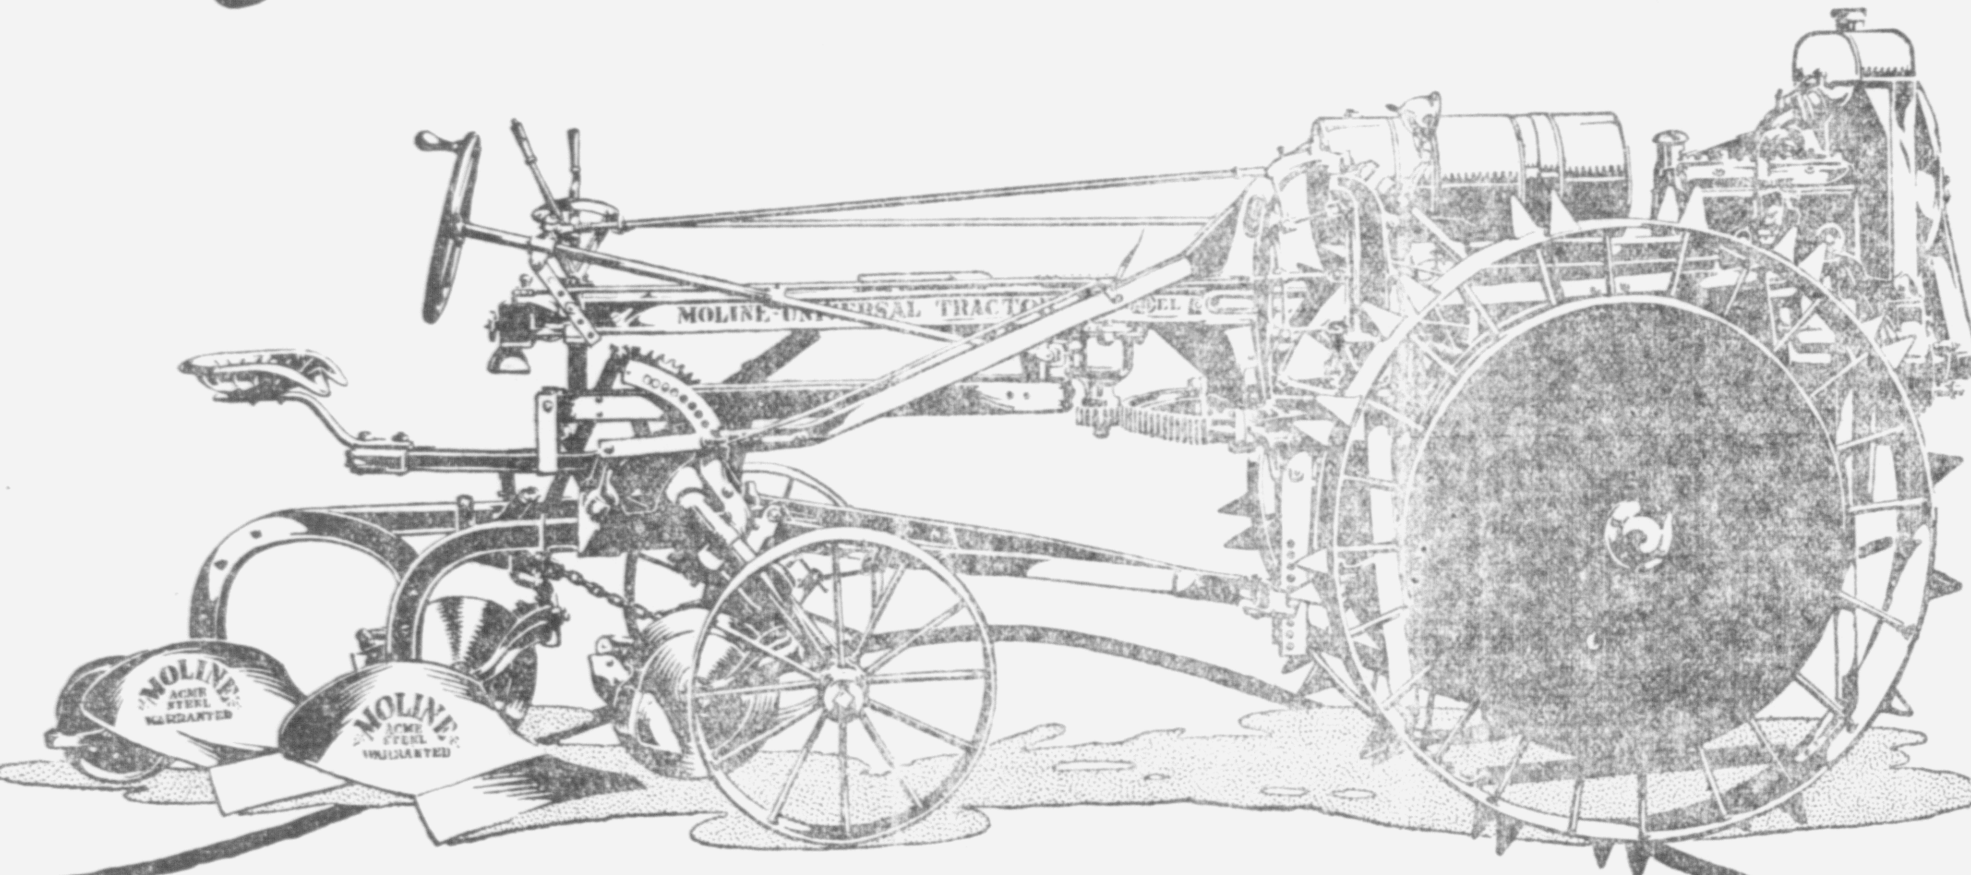

Thursday, February 6th
at Connersville on Fair Grounds

75 - Head of Horses and Mules - 75

Several good teams of mares. A number of good farm horses.
These horses and mules are an extra good lot.

King & Moffett

Buy Your Moline Tractor Now

Because:

- You may not be able to get a Moline Universal if you delay ordering.
- You will help relieve spring congestion of shipping by buying now.
- You will have plenty of time to become familiar with its construction and operation before the spring rush and will be able to work your tractor in on belt work and other light jobs.
- It is the only tractor which does all farm work including cultivating.
- One man operates both tractor and implement from the seat of the implement where you must sit in order to do the best work.

- Tractor and implement form one unit—backs as easily as it goes forward—turns in a 16-ft. circle.
- It has plenty of power for your heaviest work, yet light in weight to operate economically on light jobs. All the weight on two big drive wheels—no dead weight—no extra expense.
- Substantially constructed for many years of service.
- Electric lights for night work and self starter for non-robust labor.
- You can practically double your efficiency—you can produce more food with less help. You will need it, order now.

order that they might assist in expediting the business of the legislature.

Although several hearings have been held upon some of the bills of major importance there has been no tendency on the part of any interest to impede the progress of the General Assembly, according to one of the hold-over members of the Senate today. The scarcity of bills in the two houses is attributed to many causes by various members of the legislature but it appears to be the general consensus of opinion that a "go easy" policy is highly desirable during the period of reconstruction.

CELEBRATES TWENTY-EIGHTH ANNIVERSARY

The Indiana Savings and Loan Association Holds its Annual Session Today.

A. B. IRVIN IS TREASURER.

Indianapolis, Ind., Feb. 5.—The Indiana Savings and Loan Association celebrated its twenty-eighth anniversary here today. The morning session was devoted to a meeting of the executive committee, of which W. E. Reed, of Attica, is President.

Mayor Charles W. Jewett, of Indianapolis, addressed the members at the afternoon session. Other speakers were J. B. Roessler, Anderson; James H. Tomlin, representing the auditor of state; Miss Latha Coer, Attica, and H. S. Rosenthal, of Cincinnati.

The executive committee includes a representative from each of the thirteen congressional districts in the state, as follows: Delamett, Evansville, first district; O. Harold, Bloomfield, second district; L. O'Bannon, Corydon, third district; H. H. Sims, Lawrenceburg, fourth district; C. A. Royse, Terre Haute, fifth district; M. L. Koons, Neweastle, sixth district; E. E. Katterhenry, Indianapolis, seventh district;

(vacancy exists in eighth district due to the death of Thomas B. Orr, of Anderson); C. F. S. Neal, Lebanon, ninth district; H. S. Davidson, Whiting, tenth district; C. Haag, Peoria, eleventh district; C. J. Weber, Fort Wayne, Twelfth district, and J. A. McMichael, Mishawaka, thirteenth district. The late T. B. Orr, of Anderson, was also first vice-president of the league. F. M. Boone, of South Bend, is second vice-president and A. B. Irvin, of Rushville, is treasurer.

In Russia bricks made of coal dust, combined with molasses and resin, are used for paving.

DAILY HEALTH TALKS

The Many Mysteries of Nature

BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiarly strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.

Horses and Mules

The majority of horses and mules that are out of condition are traceable to worms and indigestion, while worms are very common to colts and young horses. ACME WORM BOUNCER will rid your horses and mules of worms and improve their condition. When preparing your horses and mules for spring work feed them a tablespoonful of

ACME WORM BOUNCER

two or three times a day. They will shed better, eat better and do better. When fitting your horses for market, feed ACME WORM BOUNCER—Nothing equal to it.

POINTS TO CONSIDER IN BUILDING HOSPITAL

(Contributed by a citizen of Rushville who has lived here for 24 years.)

Have you lost a dear one in an acute attack? If it was in a hospital you have the consolation that the doctor and nurses did what they could.

Does it make you feel better if the doctor comes rushing in five minutes after it is all over?

Is a man less of a man because he has facts he did not know?

existing desire for secret sessions at Versailles lies in the embarrassment that would result from disclosure of the 15th article of the London pact, which provides as follows:

"France, England and Russia obligate themselves to support Italy in her desire for non-admittance of the Holy See to any kind of diplomatic steps for the purpose of the conclusion of peace or the regulation of question arising from the present war."

In view of such an understanding it is obvious that for the United States, or any power not a party to the secret treaties, to have knowledge of them, and thus be in a position to debate what the Allies had already decided upon as unalterable would be exceedingly embarrassing. It would seem, therefore, that so long as these "unalterable agreements" exist, they make the peace discussions at Paris merely a hollow form. Liberal leaders argue that they should be cleared away at the instance of popular demand and that the delegates should be at liberty to negotiate a people's treaty, based upon present necessities rather than past secret diplomatic sessions.

For temporary use a lemon squeezer made of paper has been invented.

Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage.
There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.
The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.
S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

POWERS PLEDGED SECRECY OF PACTS

United States is Officially, if Unwittingly, in Support of Secret Treaties

NOT COGNIZANT OF COMPACT

Would Destroy all Possibilities of a Just and Lasting Peace if Carried Out

By AMOS PINCHOT
(Written for United Press.)

Washington, Feb. 5.—The United States is officially, if unwittingly, on record in support of the Allied secret treaties which would destroy all possibility of a just and lasting peace, if carried out.

This contretemps resulted when Secretary Lansing made a statement in August, 1917, in response to the public clamor for an official clarification of America's war aims. In this statement he said there was no need for a declaration of war aims, because "the aims of the United States have not changed since we entered the war. We are substantially in accord with Great Britain and France and nothing has occurred to change our attitude."

Lansing is practically certain, could not have been cognizant of the secret treaties when he made this pronouncement. If he were, it would have meant that he was sympathetic with the whole program of

imperialist annexations contained in the Anglo-Franco-Russo-Italian treaty of 1915, of which the other secret diplomatic understandings which may be compared to a glorified Rivers and Harbors bill, giving to each nation which opposed Germany exactly what it wants.

If the United States government had been familiar with the Allies' secret compacts and had then, with full knowledge, put its seal of approval on them through the head of the state department, it would have amounted to assuring the Allies, that the American armies would fight until the guarantees in the secret treaties were accomplished. And the very fact that President Wilson is

now in Paris strenuously opposing fulfillment of many of these commitments appears to be positive proof that Lansing's statement was predicated upon non-possession of the treaties.

In fact, the writer was informed by a member of the Bureau of Public Information that the President himself had complained of his inability to obtain a copy of the secret treaties.

It would appear difficult to understand why the United States should have gone to war without first familiarizing itself with all European agreements relating to war aims. On the other hand, it would seem equally hard to understand why the Allied governments allowed the United States to remain in ignorance. But the sixteenth article of the treaty of 1915 largely explains this peculiar action on the part of the Allies. It shows the four signatory powers were pledged to keep the words: "This treaty must be kept secret." Again, in the secret telegram from Sazonoff, the Czar's foreign minister to the Russian ambassador in Paris, dated Feb. 24, 1916, is revealed a further reason for secrecy. This telegram says:

"Political agreements entered into among the Allies during the war should remain unalterable and are not subject to revision. This refers to our agreement with France and England about Constantinople and the Straits, Syria and Asia Minor, and also the London agreement with Italy. All propositions as to future boundaries as to Central Europe are at this moment premature, but at the same time it is to be remembered that we are ready to grant to France and England complete freedom in fixing the limitations of the western German boundary, depending that the Allies in their turn will grant us freedom in fixing our boundaries with Germany and Austria."

Another reason for past concealment of the secret treaties and the

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. ²/₃ druggists.

13 Dollars— 13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

Chester Forest Helm, Richmond; Private Charles William Hanson, Solisbury; Private George A. Lytle, Brazil; Private Emmitt G. Bullington, Hardinsburg; Private Babne S. Hansen, Indianapolis; Private John F. Daily, Kokomo; Private Charles E. Hutton, Rockville.

An Attack of Influenza Often Leaves Kidneys In Weakened Condition.

Doctors in all parts of the country have been kept busy with the epidemic of influenza which has visited so many homes.

The symptoms of this disease are very distressing and leave the system in a run down condition. Almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular medium and large size bottles, for sale at all druggists. Be sure to mention this paper.—(Adv.)

Witness, the Clerk of said Court, this 27th day of January, 1919.
GEO. B. MOORE, JR.,
Clerk Rush Circuit Court.
J. Q. Thomas, Attorney.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's Iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren—it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Glycerin Capsicum. Total

JUDGMENT IS AS CERTAIN AT DEATH

Evangelist Renn Comments on Fact That People Will Accept One Fact But Not The Other

BAPTIST REVIVAL RESUMED

Five Go Forward at The Close of The Service—Meetings Each Night This Week at 7:30

The service last evening was a splendid start for another week's evangelistic service at the First Baptist church. The audience more than filled the lower room so that many had to find seats in the gallery. The solo by Mr. Backemeyer was specially well received.

Evangelist Renn spoke on the "Judgment;" using as his text Daniel 7:10, "The judgment was set and the books were opened." The evangelist said each day makes a part of the record of your life.

"What an awful thing it's going to be for some of you to face your record," he declared. "The day is coming when you will stand before God. Your disbelief it will not change it. You believe in other things, why not the judgment? No one will deny the scripture statement that 'it is appointed unto all men once to die.' This fact is admitted by all.

"But the sacred writer goes a step farther and reminds us that after death, 'The Judgment.' We are compelled to accept the fact of death, so why not the fact of the judgment. One is as inevitable as the other. Daniel Webster, the marvelous master-mind of his day, said that the profoundest thought to him was the thought of personal accountability to God. God not only knows of our deeds and words but our every thought. We may be able to fool people or even ourselves but not God. As a man thinketh in his heart so is he. On the day of judgment there will be no secrets. The judgment will not be a class judgment; each must answer for himself. Every knee must bend and every tongue confess. There are three ways to escape from the civil law.

"1. There may be no law under which to try your case.

"2. There may be a lack of evidence to convict you.

"3. After the jury has pronounced you guilty and the judge given his sentence, the governor of the state may pardon.

"But under God's law there is only one means of escape which is Jesus. For a judge, we shall have no mere man or angel but Jesus who walked here and knows all our trials and temptations. He will be the same Jesus but he will not have the same office. He was faithful as our Saviour; He will be just as faithful as judge of the world. And who-so-ever was not found written in the book of life was cast into the lake of fire. What a precious possession to have your name written in the book of life! Is your name written there?

At the close of the sermon five came forward, signifying their desire to find Christ. Services will begin this evening promptly at 7:30. Members of the church, and others who wish, should remember the short prayer service beginning at 7:15, it is announced.

ATTENDS ANNIVERSARY

Mayor A. B. Irvin went to Indianapolis today to attend the celebration of the Indiana Saving and Loan Association, it being their twenty-eighth anniversary. Mr. Irvin is treasurer of the company.

FRENCH WOMEN SEE AMERICAN MOVIES

Moving Pictures and Education are
not Very Easily Divorced these
Days.

FILM TAKES ANOTHER ROLE.

Pictures Showing How Women may
Make Their Own Livelihood will be
Shown.

(By United Press.)

Paris, Jan. 10. (By Mail.)—Moving pictures and education are not easily divorced these days.

Another role than that of pedagogic now falls upon the film drama. Its new mission is to make and intensify morale. Possibly it will play the part of employment agency to women of France.

To them after their 4 long years of labor in munition shops behind the lines the moving picture is taking courage.

The French woman who has recently lost her job in the munitions shop is finding through the medium of moving pictures that there are other jobs for women than those created by the urge of war.

Living her life within the doors of her own home, realizing the necessity for being a good cook, a good housekeeper and something of a seamstress and milliner, the woman of France found herself quite unprepared when the war broke out. But despite her many handicaps, she went. It will be many a long day before the world will cease singing the praises of the women of France with out whose work, M. Clemenceau is

said to have remarked, "the war could not have gone on for twenty minutes."

The war went on and the armistice was signed. And today the French women are faced with a greater problem than any brought to them by war.

"My home is gone. My relatives are dead. What shall I do? Where shall I go next?"

These are the questions that are troubling the French women now that the war is over.

For many the questions will be answered through moving pictures. While the war was in progress the men in cantonments in France were entertained with views of what was doing at home. In many of the Liberty theatres pictures were shown that stimulated morale by bringing cheer and facts to the minds and eyes of the boys.

If this could be done while the guns were rattling overhead, why not the more adequately in an after-war program?

Thus has the American Y. W. C. A. argued. And it is largely to show the women of France the kind of work that women of the world are doing that this organization has brought a moving picture exhibit to France to be shown in its foyers (social rooms in industrial districts) hotels for women war workers and huts for nurses.

In all the centers opened by the Y. W. C. A. in France under its 126 secretaries these pictures are to be shown.

Beside industrial phases the exhibit contains many pictures of large cities in America and other countries. There is a "better baby" film which shows the most modern methods of infant care. A series of national child welfare charts, dealing with the following subjects is included in the exhibit. Prevention of tuberculosis in childhood; healthy babies and children; care for habit and forming; growth through play; growth through study and growth through work.

Showing the work that women may do and are doing successfully are pictures of women engaged in various sorts of factories, other than those connected in any way with war emergencies; views of the dairy industry of Florida; women at work in rural districts, and a picture showing use of modern farm implements.

These films have been collected by Miss Sutherland Griffith of Los Angeles, Cal., who formerly was a moving picture actress and who knows the industry from the inside out. Under Miss Griffith's direction it is planned also to have pictures made of Y. W. C. A. work in America and other countries.

One of the big film ventures of the Y. W. C. A. is now being carried on in France by Dr. Katherine Bement Davis, formerly commissioner of charity and corrections for the city of New York, and more recently head of the woman's department of social hygiene for the U. S. government. Under her direction pictures descriptive of all the Y. W. C. A.'s activities in France are being made. These are to be used in connection with lectures that will be given by herself, and workers under her, upon their return to America.

RECEIVES BLOW ON THE HEAD

Result is That James Norris' Ankles
Are Severely Sprained

James Norris is suffering with severely sprained ankles as the result of being hit on the head with a cupboard while helping Elmer Darnell move his household goods. The accident happened last Saturday northeast of Falmouth. Although Mr. Norris sustained painful injuries to his head and shoulders, the injury to his ankles was probably the most severe because he was standing on a hard gravel road when the blow struck him in the head. No serious complications are anticipated by the attending physician and his early recovery is expected.

RUSHVILLE AUTO CO.

113 West Second Street.

THIRD STREET IS TO BE COMPLETED

City Council Amends Plans and
Specifications Allowing Use of
T Rails By I. & C.

OTHERS NOT TO BE BOUGHT

Contractor George T. Miller, Meets
With Council and Says He Will
Begin Work Mar. 1

The work of completing the Third street pavement from Morgan street to Julian will be started about the first of March, if the weather is favorable, since the city council, at its regular meeting last night, adopted a resolution amending the plans and specifications so as to permit the use of a T rail.

George T. Miller of Lebanon, the contractor, met with the council when the resolution was adopted. He said that he would be ready to go to work by the first of next month if the weather did not interfere.

The plans and specifications were amended upon a showing made by the I. & C. that it was impossible to procure flanged or grooved rails with which to relay its tracks. The company agrees, since it has been permitted to use the T rails now in use, to electrically weld all the joints now in or that may be hereafter put in the track and maintain the tracks on the street on which the brick will be laid, in such welded condition. The company also agrees to relay the track with new ties and to perform all other requirements of the plans and specifications.

The agreement between the city and the I. & C. will result in the dismissal in circuit court here of an injunction suit brought by the I. & C. last fall to prevent the contractor from finishing the street. The I. & C. got an injunction on the showing that it could not get the special material required to comply with the plans and specifications.

The pavement from Buena Vista avenue to Morgan street has been completed almost a year and the contractor has been anxious to finish the job, there being only three blocks left to pave, so that he can collect the money will be due him. He unloaded the brick for the whole street more than a year ago and they have been stacked along the lawns and sidewalks on that part of the street remaining unpaved.

The resolution adopted by the council last night was as follows:

Whereas, it is claimed by the I. & C. traction company that it is impossible for it to procure flanged or grooved rails with which to relay its tracks in Third street where the same is to be improved by paving; and,

Whereas, said traction company proposes that if it is permitted to use the T rails now in said track in said street it will electrically weld all the joints now in or that be hereafter put in said track and maintain said track in such welded condition and also relay said track with new ties and will also perform all and singular the other requirements of the plans and specifications for said street paving now therefore,

Be it resolved by the city council of the city of Rushville, Ind., in regular meeting assembled that said plans and specifications be and are hereby amended so as to permit the use of a T rail in said track of said I. & C. traction company on condition that said company shall electrically weld and maintain in that condition the T rails now in said track or that may thereafter be put on said track and place the same on oak or metal shims not exceeding one inch in thickness, the whole to be laid on new ties, and that in all other respects the original plans and specifications are to be followed so far as they affect said company.

HORSE FRIGHTENS AT WIRE

Injuring Driver Near Andersonville
and Wrecking Buggy

A horse driven by Hickson Stevens and John Hankins on the county line road near Andersonville scared at a bale of wire this morning, resulting in the wrecking of the buggy in which they were riding, injuring Mr. Hankins, whose head was badly cut. Dr. Metcalf of New Salem was called and 18 stitches were necessary to close the wound. Mr. Stevens however, came out without a scratch.

MOTION FOR A NEW TRIAL OVERRULED

City Attorney Announces That Case
of Madden vs City Will be Taken
to Appellate Court

JUDGMENT IN ANOTHER CASE

Special Judge Jenkins of Greensburg denied a new trial in the circuit court today in the case of Michael Madden against the city of Rushville, in which Madden was awarded judgment several days ago for \$120 and interest since January 4, 1913, making the total judgment \$163.20.

George Young, representing the city as city attorney, announced he would appeal the case to the state appellate court and was given ninety days to file a bill of exceptions. Madden claimed money was due him for services performed during Mayor Black's administration and successive administrations have refused to allow it on the ground that there was no appropriation for it.

On the default of the defendants, judgment was awarded the plaintiffs in the sum of \$76.60 on principal and interest, in the case of Hartford and Hall against Dagier Brothers, for \$100 on an account. A motion to quash was filed in the case of the state against Mrs. Tom Alsmann, arrested Monday on a serious offense.

FATE HANGS ON THE NATIONAL ASSEMBLY

First Congress of New Republic
at Weimar Tomorrow, Facing
Intricate Problems

WORKERS DEMANDING MORE

(By United Press.)

Weimar, Feb. 5.—The fate of Germany hangs on the result accomplished by the national assembly, which formally opens here Thursday. The assembly, which is really the first congress of the new republic, must untangle the most intricate problems brought about by the war.

Probably the most serious situation confronting the assembly is the breakdown of transportation, the shortage of raw materials and depletion of national funds, all of which combined to render reconstruction more difficult. Every public utility and most private industries are on the verge of collapse owing to the financial strain of the war.

Workers demand better wages and in a number of cases where they are refused, they seize factories, take millions of dollars and divide the money.

MUST MAINTAIN WAGES

Washington, Feb. 5.—Wage advances to railroad employees during the war must be maintained, Director General Hines told the senate interstate house committee today and warned capital must be wiped out. The government, he indicated, still owes the railroads \$361,000,000 on rentals.

THOMAS A. JONES DIES AT 8:30 A. M.

Former County Treasurer and Veter-
an of Civil War Expires After
Illness of About a Week.

SEPTIC POISONING CAUSE.

Complications Arose From an In-
jury to One of His Fingers—
Three Children Survive Him.

Thomas A. Jones, a well known farmer and veteran of the civil war, died at his home four and a half miles west of the city, in Walker township, at 8:30 this morning. His last illness was of about a week's duration, and was caused by septic poisoning and complications arising from an injury to one of his fingers.

He was born in Fleming county, Kentucky, June 3, 1843, in a family of eight children, and came to Rush county, Indiana when about 20 years old. He was married on October 30, 1865, to Louisa F. daughter of Landen and Nancy Gardner. To this union four children were born, three of whom survive, William E., Herman E., and Nellie. The other child Ella, having died at the age of one and a half years. He is also survived by two grandchildren, one brother, John A. Jones, and other relatives, besides a host of friends and acquaintances. The wife died January 12, 1882, and Mr. Jones never remarried.

He enlisted at the age of 18 at Maysville, Kentucky, in Company A, 10th Kentucky cavalry, became a lieutenant and shared the war's fortunes and glories during his enlistment. He was confined in a hospital at Lexington in September, 1862, and was later furloughed and returned to his command at expiration of the illness. His term of service having expired, he was honorably discharged in September, 1863.

In Rush county where he has been so well and so favorably known, he held various offices of trust. He was county treasurer from 1890 to 1894; a justice of peace in Walker township until 1890, was connected for many years with the Rush county Agricultural Association, as officer or director, was a member of the Phoenix lodge No. 62 F. and A. M. for many years; of Joel Wolf post, G. A. R., and a director of the Rush county National bank. He had also served as the administrator of many estates.

The funeral services will be held at the residence in Walker township Friday afternoon at 1:30 o'clock. The Rev. Daniel Ryan of Caribage, assisted by the Rev. F. Westhafer of Arlington will conduct the services. Interment will be made at East Hill cemetery.

FIRST STEP TO INTERFERE

Soldiers Council Seizes Telegraph
Offices at Weimar

(By United Press.)

Berlin, Feb. 5.—The first attempt to interfere with the national assembly which convenes in Weimar on Thursday apparently has been taken by the soldiers council in that region.

Reports were received here today that telegraph offices had been seized and censorship or confiscation of all government and assembly telegrams from Weimar have been ordered. The government is prepared to declare a state of siege in Weimar if such a step is necessary to protect the assembly.

TO PROTECT FOODSTUFF

Berlin, Feb. 5.—Four British and American cruisers have entered Elbe enroute to Hamburg to protect steamers loaded with food stuffs, according to reports here today. Hamburg is expected to be the central distributing point for food supplies to Germany by the allies.

AGREES ON PART OF CONSTITUTION

Committee Reaches Provisional
Agreement on Preamble and Two
Articles For League of Nations

PROGRESS IS SATISFACTORY

Whether Force to Enforce Decisions
of League Shall be Moral or
Physical is a Problem

(By United Press.)

Paris, Feb. 5.—The impression is growing that the United States shall assume the roll of God father to many of the smaller countries, willingly or unwillingly if the league of nations is to achieve all that is intended.

Paris, Feb. 5.—The special committee which is drawing up the constitution for the league of nations has agreed provisionally to the preamble and two of the articles, officials announced today. Satisfactory progress is being made on other parts of the draft.

The peace delegates are working today on more difficult problems involved in creating a league of nations—the force with which the league will make its decision effective. Opinions seemed to be divided as to whether this force should be moral or physical. Many principles have been submitted. The constitution submitted provides for reduction in every nation's armament to a point consistent with maintenance of domestic tranquility; the league is to be the ultimate judge as to size of armaments and may be needed by member nations.

The manner of raising the army would be left to their individual country.

Only great emergency would be likely to call an army to distant points. Troubles would be settled by the army nearest district affected.

It is believed that this plan will meet with ready approval of all countries since it means least change in present methods and will overcome the natural prejudice against sending troops to distant lands, except in case of great provocation.

Interchanging of views by various powers indicate that one feature of new "freedom of the seas" laws will be the prohibition of the floating mines and prohibition of all mines outside territorial waters.

LOCAL FARMERS ARE PLEASED WITH ACTION

Senate Retains Provision of Bill
Making Live Stock Board Stal-
lion Enrollment Board

SEVERAL AMENDMENTS PASS

Several Rush county farmers were present yesterday when the administration bill creating a live stock sanitary board, was passed to engrossment in the state senate in Indianapolis. Local live stock men are interested in the bill and have been boosting it. Those who attended the session of the senate were elated because an amendment to leave the stallion enrollment board with Purdue, instead of vesting the powers in the proposed live stock sanitary board, was defeated.

An amendment to provide for the removal of the state veterinarian by a majority vote of the board was carried. An amendment providing the two live stock raisers on the board must actually be engaged in live stock production and that no member shall be interested in the manufacture of supplies for live stock raisers, was adopted. Another amendment providing the governor and not the veterinarian appointed by the four members of the board, should have the deciding vote in case of a tie, also was passed.

MORE THAN DOUBLE JAN. '18

War Saving Stamp Sales For Jan-
uary Amount to \$10,756.50

The War Saving Stamp sales for January, 1919 were more than double that of last January. Last year the total for the month was \$4,849.75 and for this year it was \$10,756.50. This shows that people over the county have come to realize that this is a good investment and they are taking advantage of the opportunity to invest in a good security with a fair return.

ANSWERS 2 CALLS IN LESS THAN TWO HOURS

Fire Department Responds When
Sparks From Chimney Cause
Fire at Overton Home

FREQUENT ALARMS EXPECTED

The city fire department answered two fire alarms yesterday afternoon, both of them being received over the telephone.

The first call was to the home of Tom Overton in East Seventh street at 4:40 o'clock when the roof caught fire from a spark from the chimney. The fire was extinguished with chemicals and a small hole was burnt in the roof. At 6:10 the department was called to the home of Dr. John M. Lee, corner of Harrison and Fourth street, to watch the house because it was feared a fire would start from sparks coming from the chimney.

The firemen are expecting numerous calls now, with the temperature much lower than it has been for a month. Not much fire has been required to keep homes warm and it is argued that with the sudden resumption of heating fire of furnaces and stoves, fires similar to that at the Overton home will be frequent.

CONFERENCE FOR S. S. WORKERS TOMORROW

Representatives of M. E. Churches
of Connersville District Will
be Present For Meeting

DR. GRANT PERKINS TO TALK

"The Relation of The Sunday School to the Centenary," is the subject of a training conference for Sunday school workers of the Connersville district to be held in St. Paul's Methodist Church Tuesday afternoon at one o'clock. The Conference will be conducted by Dr. Grant Perkins of the Board of Sunday schools at Chicago. Dr. Perkins is a specialist in Sunday School work and methods and the conference promises to be rich in helpful suggestions and inspiration. Every Sunday school worker who is interested in the Centenary movement should plan to be present.

The Rev. Clyde S. Black has arranged with Dr. Perkins to remain in Rushville for the Thursday night service at the church which will take the place of the usual prayer meeting. The address will be on "The Sunday School and The Centenary," by Dr. Perkins.

A Methodist Minute Man will also speak and there will be special music. The Centenary movement is the greatest of its kind ever undertaken by a Protestant church, its object being the intensifying of the life of the church in every direction to meet the vital world problems of the hour. The church has decided to raise eighty millions of dollars for mission work in America and in foreign lands, one-eighth of which will be given by the Sunday schools. The evening service at the church will begin at 7:30. Everybody is invited.

REWARD OF \$25 OFFERED BY CITY

Conviction of Person or Persons
Turning in False Alarms is
Sought by Council

FOUR ALREADY THIS YEAR

Committee Appointed at Meeting to
Investigate Advisability of
Buying Fire Truck

The city council last night voted unanimously to offer \$25 reward for the apprehension and conviction of the person or persons turning in false fire alarms.

While on the subject, the council also discussed the question of supplanting the horse-drawn fire apparatus with motor equipment and passed a motion authorizing the mayor to appoint a committee of three to investigate the question of installing a fire truck and report at the next regular session, Tuesday night, February 18.

The committee appointed by Mayor Irvin is composed of Councilmen Scudder, Waggoner and Mauzy. The installation of a motor truck has been under discussion here a number of times and about a year ago those opposed to buying a big truck at that time compromised on the purchase of a light truck with a chemical attachment.

The representative of a firm selling motor trucks was here yesterday and described to the chief of the fire department and members of the council a truck which would answer the purpose here. It carries 650 feet of chemical hose and chemical tanks, in addition to an attachment to increase the water pressure. With this attachment, it is pointed out, a pressure of only fifty or sixty pounds would be needed in the mains, and the pressure could be raised to 100 or 150 pounds. This would eliminate the danger of bursting the mains with a heavy fire pressure, as if often done. Also, if the supply from the mains should fail, water could be pumped with the truck and given sufficient pressure to fight the fire.

Those favoring a motor truck point out that it would not only reduce the fire hazard, but would likewise be less expensive. The feed bill alone for the fire horses last year was between \$600 and \$700. The truck under consideration has a speed of 25 miles an hour and is equipped with pneumatic tires, which do not slip on pavement as readily as solid tires.

False alarms have been turned in with such frequency for the last year as to become annoying, which resulted in the council deciding to make an effort to make an example of someone. There have been four false alarms this year, on January 18 and 21 and February 2 and 3. There were fifteen false alarms sounded last year.

The council authorized City Attorney Young to appeal the case of Michael Madden against the city to the appellate court. Madden filed suit to collect \$120 which he alleged was due for services rendered in staying at the fire station to act as fireman of the engine when the water supply was low during Former Mayor Black's administration. The claim was not filed until Former Mayor Bebout's administration came into office and it was not allowed on the theory that there was no appropriation for it. Last month Madden was given judgment in the circuit court for \$120 and interest since January 4, 1913, making the total \$163.20.

The street commissioner was instructed by the council last night to order the outside stairway torn down from the building at the northwest corner of Main and First streets. The commissioner was also instructed to inspect all of the sidewalks in the city and order the repairs.

Constitutional Amendment Providing
For Registration of Voters is
Passed by Senate

REPORT ON HIGHWAY BILL

Majority of Committee Favors Salaries of \$3,600 For Directors
—Divided on Auto Tax

BULLETIN (By United Press.)

Indianapolis, Feb. 5.—The senate this afternoon passed the Johnson bill giving women the right to vote for presidential electors. The vote was 44 to 3. Erskine, Hagerty and Kline voting against the measure. The bill has been passed by the house and now goes to the Governor for his signature.

Indianapolis, Feb. 5.—Classification of counties for purposes of registration of voters is permitted under an amendment to the constitution passed by the senate today, 43 to 0. This amendment is expected to solve the difficulty experienced by the present registration law.

The senate by a vote of 27 to 15 passed the Bannum bill providing that mine operators must employ shot firers and are under jurisdiction of mines now.

A bill preventing the display of the red and black flag was introduced by Representative Benz.

A bill providing for a vote on the question of whether or not a constitutional convention shall be called, was introduced by Representative Miller.

The principal point in the new highway commission bill agreed to by the house committee on roads, provides all but one member of the commission shall be paid. Three separate reports were made to the house, in two of which the principles were the same. Representative Walker alone will favor indefinite postponement.

The majority of the committee voted for the following amendments: salaries of directors cut from \$6,000 to \$3,600; salaries of employees fixed by commission and governor instead of the directors.

The commission will pass on all bids and must advertise for bids for all work. If all bids are rejected the commission can not in building a road itself spend more money than the lowest bid.

In the report on the question of distribution of the auto tax, five favored that the entire amount go to the highway commission and five advocated distribution among the counties.

DELCO-LIGHT

The Complete electric light and power plant

Specified and used by
The U.S. Army and Navy
The Red Cross and the Y.M.C.A.

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in camps, storehouses, hospitals, Y. M. C. A. huts, airplane hangars, sub-chasers and other branches of the service.

In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.

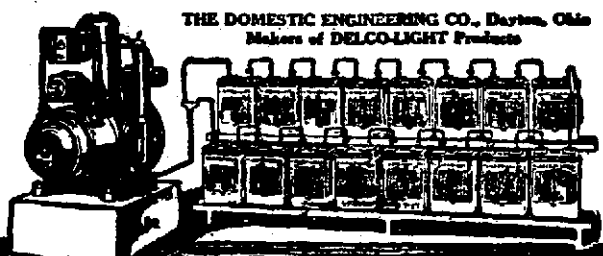

Delco-Light was specified by the Government because it is dependable, efficient, simple to operate, requires little attention, and because it is AIR-COOLED.

The result of Government tests and the satisfactory use of Delco-Light on over 60,000 farms are your assurance that Delco-Light will give you the same dependable service.

It better living conditions,—increases farm efficiency, and soon pays for itself in time and labor saved.

Amusements

A Story of a Pair of Boots

"Mrs. Leffingwell's Boots" will be shown at the Princess theatre tonight. This is a pretty story of a pair of boots which cause a great deal of trouble for the owner and all concerned. The climax of the story comes when it is discovered that there are really two pairs of shoes instead of one, as the owners of each pair think. The mystery deepens until a rainstorm that comes at an inopportune time clears the whole thing and all ends well.

Thursday and Friday "The Hun Within" will be shown, featuring Dorothy Gish and George Fawcett. Fatty Arbuckle will also be seen both nights in "The Cook."

"A Pair of Sixes" at Mystic

Tonight at the Mystic a sensational program will be given, "A Pair of Sixes," featuring Taylor Holmes.

One of the most distinctive features in the realm of motion pictures has been recorded in "Together," the charming Bluebird drama in which beautiful Violet Mersereau portrays three roles—a mother, daughter and son. When the picture, which was made in five reels, comes to the Mystic theatre Thursday, Miss Mersereau will be seen in

Ambition

TIRE MEN and WOMEN who "feel old before their time," who are languid, have no energy and lack ambition—these are often sufferers from kidney trouble.

Weak, overworked or diseased kidneys are indicated by ambitionless, always tired, nervous condition, by sallowness of skin and puffiness under eyes, backache, stiff joints, sore muscles, or rheumatic pains.

Foley Kidney Pills

get right at the cause of suffering and misery, regulate the kidneys and bladder and restore to sound and healthy condition.

N. R. Reese, Dublin, Ga., writes: "I want to say I am better. Before I started to take Foley Kidney Pills I could not turn over in the bed I had such severe pain in my back and hips. I was so stiff I could not bend over and I had to get up at night five to six times. By taking Foley Kidney Pills I am up and able to go to work."

F. B. JOHNSON

several thrilling scenes, playing dual roles. In one scene in particular she is seen actually engaged in a fight, as Laura Standhope, with herself in the part of Larry the Kid. This scene is one of the most successful exposures ever made. One scene shows her in all three roles, an example of triple exposure.

The story deals with a young girl's fight to retain an estate left to her by her father, in the care of a shrewd executor. The will provides that she and her twin brother, from whom she was separated when a child, must appear before the executor on a certain day. The girl's triumph over the executor and the search for her brother necessitate

many thrilling experiences which add vigor to the charming appeal of the story.

The Blessings of Winter.

Some poet ought to celebrate fittingly the praises of the present winter.

Anyone might fancy that the miraculous mildness of these winter months, in almost every section of the country, and indeed in many other countries, is a direct result of the armistice signed Nov. 11, one of the natural and proper blessings of world peace. It appears as if Nature herself had decided to stop her warfare and cooperate with the Allies in the necessary and merciful work of reconstruction.

It was often remarked, during the war, that Nature seemed against us. The intolerable weather of last winter gave color to the view. Cold, snow and wind collaborated with the enemy to hinder our war preparations and break our fighting spirit. People still shiver as they remember January, 1918, with its incessant blizzards, its freeze-ups and block-

See what the ground hog did to Knecht's weather man on classified page. 27716

Sap and Salt

By BERT MOSES

There are more fake reformers than there are fakers.

Stupidity is bad enough, but pretense is unforgivable.

The question most often asked by one woman of another is this: "What did she have on?"

The accumulation of more gold than we need is not a recommendation for an orchestra chair in Paradise.

The idea that you have to stop work and put on your best duds to be real religious is at least 51 per cent erroneous.

For a man who was 600 years old, Noah hung up a ship-building record that may well make even Schwab a bit envious.

Hez Heck says: "When you come to touch the live wire of love, you will discover that it isn't just exactly what you thought it was."

ades, the insurmountable obstacles it made for transportation, and the tragic lack of fuel just when it was needed most.

Now everything is changed. The coal surplus providing against the possibility of a hard winter has hardly been drawn on at all. Fuel everywhere is plentiful. Food is plentiful. Thanks to the persistent warmth, too, food is cheaper. The cows give more milk and butter, the hens lay more eggs. The cattle and sheep and other live stock are in better condition, though they have consumed less feed. The nation has benefited in health, despite the flu, because people have been able to get outdoors more. Children have thrived and bloomed more than they usually do in these months. There has been a great saving in clothing

and shoes and various other commodities.

In short, the nation has had a chance to catch up, and will end the winter in much better condition than anyone could have expected. This will be true regardless of the weather prevailing in February and March; for it is hardly possible that these should be, from now on, enough abnormally cold weather to wipe out the good already accomplished.

Idealistic Kaiserdom.

Here is a telegram that the "People's Party", representing the German Junkers, sent to the former Kaiser on his sixtieth birthday:

"We gratefully appreciate the work which your majesty has done for the German Empire and the German people during more than thirty years. We heartily wish your majesty peace for the rest of your life and beg to assure you that millions of Germans who will live with us under new conditions and a new basis of state and life, reverence the monarchist idea and will repel every unworthy estrangement from the high ideal of German Kaiserdom and Prussian Kingship."

Who would have supposed, in this unsophisticated land, that the remained anybody in the world capable still of reverencing the Hohenzollern idea and speaking seriously of "the high ideal of German Kaiserdom?"

These are the Teutonic Bourbons. They "learn nothing and forget nothing." Fortunately for Germany, they are now powerless to do anything but talk, and when they do that they make such utter fools of themselves that her utterances are worthless even for propaganda purposes.

Our soldiers while in this country had probably heard something about the cost of French dresses and millinery. This may have something to do with the fact that few of them have married French girls.

Congress piling up legislation for President Wilson's signature suggests to us a baker making pies and setting them aside until the oven can come home and bake them.

When the Germans lose the nickname of Boches and Huns it will be a sign of a regenerated Germany.

The Fordson Tractor Lightens Farm Work

It means something to lighten the farm work these days when help is so scarce. That is where you will find the Fordson a worth-while investment.

A four-cylinder engine, a specially designed washer to purify the air that goes into the carburetor, and a kerosene burner—that's the Fordson.

BE SURE YOU HAVE AN OLIVER NO. 7 PLOW FOR YOUR FORDSON

Be sure you have the best plow to go with your tractor, the plow that is designed for it. The Oliver answers every requirement that you will make of your tractor plow. It is strong and durable. Buries all weeds at the bottom of the furrow; turns a uniform furrow at all times; plows clear to the end of the field; is controlled from the driver's seat on the tractor.

Come in and see it and we'll tell you many more advantages.

We are showing one of these Tractors on our floor, equipped with a Power Pulley.

Tractor \$950.00 delivered in field
Plow 147.50 delivered in field

WORLD LEAGUE IS CONGRESS TOPIC

What Kind of a League of Nations is Under Discussion in Various Places.

LEAGUE TO ENFORCE PEACE.

To be Nine Similar Conventions in As Many Cities, Speakers are Scheduled.

(By United Press.)

New York, Feb. 5.—The question, "What kind of a League of Nations?" is under discussion here today at the Atlantic Congress for a League of Nations, under auspices of the League to Enforce Peace.

The congress, which opened this morning in the ballroom of Hotel Astor is the first of a series of nine conventions to be held successively in as many American cities.

Delegates to the Atlantic congress were appointed by state governors, and by more than 10 chambers of commerce, rotary clubs, churches, and other organizations in New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia and West Virginia.

The speakers scheduled for the Atlantic congress will address the other conventions too. They include W. H. Taft, head of the League; James W. Gerard, formerly ambassador to Germany; Dr. Henry van Dyke, formerly minister to Holland; Frank P. Walsh, who was joint chairman with Mr. Taft of the National war labor board; A. Lawrence Lowell, president of Harvard university; George Grafton Wilson professor of International law at Harvard, and Edward A. Filene of Boston, director of the Chamber of Commerce of the United States.

The congress here will close tomorrow night with a mass meeting, which will adopt resolutions to be cabled to the Paris peace conference and sent to the United States senate and house of representatives.

The same procedure is laid down for the other eight Congresses, which will follow in close order. The key note of the gathering will be the necessity of showing foreign delegates to the peace conference that the people of the United States are behind President Wilson in his efforts to establish a strong, workable League of Nations.

At each of the other eight congresses, the national staff of speakers will be augmented by prominent

leaders from the other groups of states represented. The second congress will open in Boston, Feb. 1. It will be known as the New England congress, Chicago, Feb. 10 and 11; Northern, Minneapolis, Feb. 12 and 13; Northwestern, Portland, Ore., Feb. 16 and 17; Pacific coast, San Francisco, Feb. 19 and 20; Mountain states, Salt Lake City, Feb. 21 and 22; Mid-Continent, St. Louis, Feb. 25 and 26, and Southern, Atlanta, Feb. 28 and March 1.

RUSH CHAPTER MEETING

Rush chapter No. 24, R. A. M. will have work in the P. M. and M. E. M. degrees Thursday evening at 7:30 o'clock. Visiting companions will be welcome.

REWARD OF \$25 OFFERED BY CITY

THE BULL DOG PASSES THE HALF WAY MARK TODAY

CYLINDER

This is another Litchfield creation which has caused consternation in the ranks of competitors. No spreader has this feature except the RUSHVILLE SPECIAL.

It is so called because of its savage, determined and never-quit style of taking hold of the load and distributing it perfectly over the ground. This cylinder is made of nine steel "U" bars. These teeth are inserted into the bar hot and riveted on each side of it. These bars are reinforced with a center support which prevents warping and breaking. The teeth are of different lengths and are so distributed over the entire surface of the cylinder, that they take long and short digs into the load, and what the long teeth fail to get, the shorter ones handle as they come to it. It is just like two cylinders, working together; one cylinder working a little deeper than the other all the time.

This beater wheel or cylinder hangs about five inches below the bottom of the spreader box and is large enough to extend above the top of the box. As the conveyor moves the load back, this beater wheel, with its peculiar toothed construction, SLICES the load from bottom to top as it projects from the box. Bear in mind that it CUTS DIRECTLY UP and there is no "wallowing" into the load and a consequent packing and awkward, heavy work in distributing.

This beater wheel reduces the draft over 15% and in connection with our NO CHOKE box—which we will tell you about next week—from 25% to 30% in wet, heavy material. If you are looking for the best spreader you can buy, don't overlook calling at my place of business the next time you are in Rushville, and look over the RUSHVILLE SPECIAL. It is not a high priced machine, in fact it sells for less than most of the machines it is in competition with.

C. H. (Nick) Tompkins

Progress of 71st Session of Ind. General Assembly Exceeds That of Any Previous One.

BUSINESS STARTS EARLY.

Leaders Urge all Committees to Get Bills under Consideration on Floor to Avoid Closing Hour Rush.

Indianapolis, Ind., Feb. 5.—The Seventy-first session of the Indiana General assembly passed the half way mark today. The progress made at the present session of the legislature, according to leaders in both the House and the Senate exceeds that of any previous legislature in the history of the state.

Business in both branches was started earlier than customary because of the fact that organization was effected quicker than had been anticipated and because of the fact that there has been comparatively few bills introduced during the first half of the allotted time of the legislature.

Speaker Eschbach of the House and Lieutenant Governor Rush, president of the Senate, have constantly urged all committees in both houses to get all bills under consideration onto the floor of the two

King & Moffett

Buy Your Moline Tractor Now

Because:

- You may not be able to get a Moline-Universal if you delay ordering.
- You will help relieve spring congestion of shipping by buying now.
- You will have plenty of time to become familiar with its construction and operation before the spring rush and will be able to work your tractor in on belt work and other light jobs.
- It is the only tractor which does all farm work including cultivating.
- One man operates both tractor and implement from the seat of the implement where you must sit in order to do the best work.

- Tractor and implement form one unit—backs as easily as it goes forward—turns in a 16-ft. circle.
- It has plenty of power for your heaviest work, yet light in weight to operate economically on light jobs. All the weight on two big drive wheels—no dead weight—no extra expense.
- Substantially constructed for many years of service.
- Electric lights for night work and self starter for non-robust labor.
- You can practically double your efficiency—you can produce more food with less help. You will need it, order now.

order that they might assist in expediting the business of the legislature.

Although several hearings have been held upon some of the bills of major importance there has been no tendency on the part of any interest to impede the progress of the General Assembly, according to one of the hold-over members of the Senate today. The scarcity of bills in the two houses is attributed to many causes by various members of the legislature but it appears to be the general consensus of opinion that a "go easy" policy is highly desirable during the period of reconstruction.

branches in order that the closing hour rush might be avoided to a large extent.

Democratic leaders in both branches have urged that the appropriation bills, which are usually brought forth during the ebbing hours of the session be placed upon their passage as early as possible in

(vacancy exists in eighth district due to the death of Thomas B. Orr, of Anderson); C. F. S. Neal, Lebanon, ninth district; H. S. Davidson, Whiting, tenth district; C. CELEBRATES TWENTY-EIGHTH ANNIVERSARY

The Indiana Savings and Loan Association Holds its Annual Session Today.

A. B. IRVIN IS TREASURER.

Indianapolis, Ind., Feb. 5.—The Indiana Savings and Loan Association celebrated its twenty-eighth anniversary here today. The morning session was devoted to a meeting of the executive committee, of which W. E. Reed, of Attica, is President.

Mayor Charles W. Jewett, of Indianapolis, addressed the members at the afternoon session. Other speakers were J. E. Roessler, Anderson; James H. Tomlin, representing the auditor of state; Miss Latha Coer, Attica, and H. S. Rosenthal, of Cincinnati.

The executive committee includes a representative from each of the thirteen congressional districts in the state, as follows: DeJarnett, Evansville, first district; O. Harold, Bloomfield, second district; L. O'Bannon, Corydon, third district; H. H. Sims, Lawrenceburg, fourth district; C. A. Royse, Terre Haute, fifth district; M. L. Koons, Newcastle, sixth district; E. E. Katterhenry, Indianapolis, seventh district;

DAILY HEALTH TALKS

The Many Mysteries of Nature

BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiar strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.

Horses and Mules

The majority of horses and mules that are out of condition are traceable to worms and indigestion, while worms are very common to colts and young horses. ACME WORM BOUNCER will rid your horses and mules of worms and improve their condition. When preparing your horses and mules for spring work feed them a tablespoonful of

ACME WORM BOUNCER

two or three times a day. They will shed better, eat better and do better. When fitting your horses for market, feed ACME WORM BOUNCER—Nothing equal to it.

THE MAUZY COMPANY

POWERS PLEDGED SECRECY OF PACTS

United States is Officially, if Unwittingly, in Support of Secret Treaties

NOT COGNIZANT OF COMPACT

Would Destroy all Possibilities of a Just and Lasting Peace if Carried Out

By AMOS PINCHOT
(Written for United Press.)

Washington, Feb. 5.—The United States is officially, if unwittingly, on record in support of the Allied secret treaties which would destroy all possibility of a just and lasting peace, if carried out.

This contretemps resulted when Secretary Lansing made a statement in August, 1917, in response to the public clamor for an official clarification of America's war aims. In this statement he said there was no need for a declaration of war aims, because "the aims of the United States have not changed since we entered the war. We are substantially in accord with Great Britain and France and nothing has occurred to change our attitude."

Lansing it is practically certain, could not have been cognizant of the secret treaties when he made this pronouncement. If he were, it would have meant that he was sympathetic with the whole program of

imperialist annexations contained in the Anglo-Franco-Russo-Italian treaty of 1915, of with the other secret diplomatic understandings which may be compared to a glorified Rivers and Harbors bill, giving to each nation which opposed Germany exactly what it wants.

If the United States government had been familiar with the Allies' secret compacts and had then, with full knowledge, put its seal of approval on them through the head of the state department, it would have amounted to assuring the Allies, that the American armies would fight until the guarantees in the secret treaties were accomplished. And the very fact that President Wilson is

now in Paris strenuously opposing fulfillment of many of these commitments appears to be positive proof that Lansing's statement was predicated upon non-possession of the treaties.

In fact, the writer was informed by a member of the Bureau of Public Information that the President himself had complained of his inability to obtain a copy of the secret treaties.

It would appear difficult to understand why the United States should have gone to war without first familiarizing itself with all European agreements relating to war aims. On the other hand, it would seem equally hard to understand why the Allied governments allowed the United States to remain in ignorance. But the sixteenth article of the treaty of 1915 largely explains this peculiar action on the part of the Allies. It shows the four signatory powers were pledged to keep the words: "This treaty must be kept secret." Again, in the secret telegram from Sazonoff, the Czar's foreign minister to the Russian ambassador in Paris, dated Feb. 24, 1916, is revealed a further reason for secrecy. This telegram says:

"Political agreements entered into among the Allies during the war should remain unalterable and are not subject to revision. This refers to our agreement with France and England about Constantinople and the Straits, Syria and Asia Minor, and also the London agreement with Italy. All propositions as to future boundaries as to Central Europe are at this moment premature, but at the same time it is to be remembered that we are ready to grant to France and England complete freedom in fixing the limitations of the western German boundary, depending that the Allies in their turn will grant us freedom in fixing our boundaries with Germany and Austria."

Another reason for past concealment of the secret treaties and the

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid liver.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. "Druggists."

POINTS TO CONSIDER IN BUILDING HOSPITAL

(Contributed by a citizen of Rushville who has lived here for 24 years.)

Have you lost a dear one in an acute attack? If it was in a hospital you have the consolation that the doctor and nurses did what they could.

Does it make you feel better if the doctor comes rushing in five minutes after it is all over?

Is a man less of a man because he has facts he did not know?

existing desire for secret sessions at Versailles lies in the embarrassment that would result from disclosure of the 15th article of the London pact, which provides as follows:

"France, England and Russia obligate themselves to support Italy in her desire for non-admittance of the Holy See to any kind of diplomatic steps for the purpose of the conclusion of peace or the regulation of question arising from the present war."

In view of such an understanding it is obvious that for the United States, or any power not a party to the secret treaties, to have knowledge of them, and thus be in a position to debate what the Allies had already decided upon as unalterable would be exceedingly embarrassing. It would seem, therefore, that so long as these "unalterable agreements" exist, they make the peace discussions at Paris merely a hollow form. Liberal leaders argue that they should be cleared away at the instance of popular demand and that the delegates should be at liberty to negotiate a people's treaty, based upon present necessities rather than past secret diplomatic sessions.

For temporary use a lemon squeezer made of paper has been invented.

Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by

sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

13 Dollars— 13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

dinsburg; Private Bahne S. Hansen,
Indianapolis; Private John F. Daily,
Kokomo; Private Charles E. Hutton,
Rockville.

An Attack of Influenza Often Leaves Kidneys In Weakened Condi- tion.

Doctors in all parts of the coun-
try have been kept busy with the
epidemic of influenza which has
visited so many homes.

The symptoms of this disease are
very distressing and leave the sys-
tem in a run down condition. Al-
most every victim complains of
lame back and urinary troubles
which should not be neglected, as
these danger signals often lead to
dangerous kidney troubles. Drug-

gists report a large sale on Dr. Kil-
mer's Swamp-Root which so many
people say soon heals and strength-
ens the kidneys after an attack of
grip. Swamp-Root, being an herbal
compound, has a gentle healing ef-
fect on the kidneys, which is almost
immediately noticed in most cases
by those who try it. Dr. Kilmer &
Co., Binghamton, N. Y., offer to
send a sample size bottle of Swamp-
Root, on receipt of ten cents, to
every sufferer who requests it. A
trial will convince any one who may
be in need of it. Regular medium
and large size bottles, for sale at
all druggists. Be sure to mention
this paper.—(Adv.)

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's Iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phosphoric Acid; Olearin; Capsicum. Fol.

JUDGMENT IS AS CERTAIN AT DEATH

Evangelist Renn Comments on Fact That People Will Accept One Fact But Not The Other

BAPTIST REVIVAL RESUMED

Five Go Forward at The Close of The Service—Meetings Each Night This Week at 7:30

The service last evening was a splendid start for another week's evangelistic service at the First Baptist church. The audience more than filled the lower room so that many had to find seats in the gallery. The solo by Mr. Backemeyer was specially well received.

Evangelist Renn spoke on the "Judgment," using as his text Daniel 7:10, "The judgment was set and the books were opened." The evangelist said each day makes a part of the record of your life.

"What an awful thing it's going to be for some of you to face your record," he declared. "The day is coming when you will stand before God. Your disbelieving it will not change it. You believe in other things, why not the judgment? No one will deny the scripture statement that 'it is appointed unto all men' once to die.' This fact is admitted by all.

"But the sacred writer goes a step farther and reminds us that after death, 'The Judgment.' We are compelled to accept the fact of death, so why not the fact of the judgment. One is as inevitable as the other. Daniel Webster, the marvelous master mind of his day, said that the profoundest thought to him was the thought of personal accountability to God. God not only knows of our deeds and words but our every thought. We may be able to fool people or even ourselves but not God. As a man thinketh in his heart so is he. On the day of judgment there will be no secrets. The judgment will not be a class judgment; each must answer for himself. Every knee must bend and every tongue confess. There are three ways to escape from the civil law.

"1. There may be no law under which to try your case.

"2. There may be a lack of evidence to convict you.

"3. After the jury has pronounced you guilty and the judge given his sentence, the governor of the state may pardon.

"But under God's law there is only one means of escape which is Jesus. For a judge, we shall have no more man or angel but Jesus who walked here and knows all our trials and temptations. He will be the same Jesus but he will not have the same office. He was faithful as our Saviour; He will be just as faithful as judge of the world. And whose ever was not found written in the book of life was cast into the lake of fire. What a precious possession to have your name written in the book of life! Is your name written there?

At the close of the sermon five came forward, signifying their desire to find Christ. Services will begin this evening promptly at 7:30. Members of the church, and others who wish, should remember the short prayer service beginning at 7:15, it is announced.

ATTENDS ANNIVERSARY

Mayor A. B. Irvin went to Indianapolis today to attend the celebration of the Indiana Saving and Loan Association, it being their twenty-eighth anniversary. Mr. Irvin is treasurer of the company.

FRENCH WOMEN SEE AMERICAN MOVIES

Moving Pictures and Education are not Very Easily Divorced these Days.

FILM TAKES ANOTHER ROLE.

Pictures Showing How Women may Make Their Own Livelihood will be Shown.

(By United Press.)

Paris, Jan. 10. (By Mail.)—Moving pictures and education are not easily divorced these days.

Another role than that of pedagogue now falls upon the film drama. Its new mission is to make and intensify morale. Possibly it will play the part of employment agency to women of France.

To them after their 4 long years of labor in munition shops behind the lines the moving picture is taking courage.

The French woman who has recently lost her job in the munitions shop is finding through the medium of moving pictures that there are other jobs for women than those created by the urge of war.

Living her life within the doors of her own home, realizing the necessity for being a good cook, a good housekeeper and something of a seamstress and milliner, the woman of France found herself quite unprepared when the war broke out. But despite her many handicaps, she went. It will be many a long day before the world will cease singing the praises of the women of France with out whose work, M. Clemenceau is

said to have remarked, "the war could not have gone on for twenty minutes."

The war went on and the armistice was signed. And today the French women are faced with a greater problem than any brought to them by war.

"My home is gone. My relatives are dead. What shall I do? Where shall I go next?"

These are the questions that are troubling the French women now that the war is over.

For many the questions will be answered through moving pictures. While the war was in progress the men in cantonnements in France were entertained with views of what was going at home. In many of the Liberty theatres pictures were shown that stimulated morale by bringing cheer and facts to the minds and eyes of the boys.

If this could be done while the guns were rattling overhead, why not the more adequately in an after-war program?

Thus has the American Y. W. C. A. argued. And it is largely to show the women of France the kind of work that women of the world are doing that this organization has brought a moving picture exhibit to France to be shown in its foyers (social rooms in industrial districts) hotels for women war workers and huts for nurses.

In all the centers opened by the Y. W. C. A. in France under its 126 secretaries these pictures are to be shown.

Beside industrial phases the exhibit contains many pictures of large cities in America and other countries. There is a "better baby" film which shows the most modern methods of infant care. A series of national child welfare charts, dealing with the following subjects is included in the exhibit. Prevention of tuberculosis in childhood; healthy babies and children; care for habit and forming; growth through play; growth through study and growth through work.

Showing the work that women may do and are doing successfully are pictures of women engaged in various sorts of factories, other than those connected in any way with war emergencies; views of the celery industry of Florida; women at work in rural districts, and a picture showing use of modern farm implements.

These films have been collected by Miss Sutherland Griffith of Los Angeles, Cal., who formerly was a moving picture actress and who knows the industry from the inside out. Under Miss Griffith's direction it is planned also to have pictures made of Y. W. C. A. work in America and other countries.

One of the big film ventures of the Y. W. C. A. is now being carried on in France by Dr. Katherine Bement Davis, formerly commissioner of charity and corrections for the city of New York, and more recently head of the woman's department of social hygiene for the U. S. government. Under her direction pictures descriptive of all the Y. W. C. A.'s activities in France are being made. These are to be used in connection with lectures that will be given by herself, and workers under her, upon their return to America.

RECEIVES BLOW ON THE HEAD

Result is That James Norris' Ankles Are Severely Sprained

James Norris is suffering with severely sprained ankles as the result of being hit on the head with a cupboard while helping Elmer Darnell move his household goods. The accident happened last Saturday northeast of Fairmount. Although Mr. Norris sustained painful injuries to his head and shoulders, the injury to his ankles was probably the most severe because he was standing on a hard gravel road when the blow struck him in the head. No serious complications are anticipated by the attending physician and his early recovery is expected.
